

From mountain to sea

Changes to asbestos disposal

From 3 June 2019 we will no longer accept asbestos for disposal.

There are two licensed commercial facilities in Aberdeenshire for asbestos disposal:

- Savoch Quarry, Longside, tel: 01346 531118
- Taylors Industrial, Balmedie, tel: 01358 743911

Residents and tradesmen can also use specialist asbestos contractors operating in the area. You can find these companies by searching for "Asbestos Removal".

Changes to tyres disposal

From 3 June 2019 we will no longer accept tyres for disposal.

This is because we need more space for recycling at the Council's recycling and waste facilities.

When you need new tyres on your car, ask the garage where you have them fitted to dispose of your old tyres for you. They will normally do this for a small charge.

If you change your tyres at home, the company you buy your tyres from may be able to dispose of your tyres for a small charge. Always check first.
