

Aberdeenshire Health and Social Care Partnership Strategic Plan 2020 to 2025

Hello,

The final Aberdeenshire Health and Social Care Partnership (AHSCP) Strategic Plan 2020 to 2025 was approved in December.

The plan outlines the key priorities the Partnership will focus on over the next five years which will ensure we provide information, guidance, support and care to the people of Aberdeenshire. The plan was developed with your help and it describes how we'll work together to improve the health of local people and provide care and support when needed.

What we do

The main job of the Partnership is to deliver adult health and social care services across Aberdeenshire, ranging from Home Care services and Physiotherapy to Community Hospital and General Practice (GP) services.

We work closely with organisations in the community to support a diverse range of preventative services, and commission (buy in) specific services from Carer Support Services to Community Mental Health services and many more.

View the plan

Visit the [AHSCP publication page](#) to see the full plan or for a summary take a look at the 'Plan on a Page' or the short animation video explaining the plan and what it means to you and your community.

To make it easy for as many people as possible to find out about the plan we have also created an 'Easy Read' and 'Plain Text' version and additional alternative formats are available on request.

Delivering the priorities

The plan outlines the vision of the Partnership and behind this sits a framework supporting how we will deliver our priorities, this includes the:

- Commissioning Plan – providing the detail of how we change services provision and what resources we need to deliver our priorities.
- Overarching plans – detailing how our workforce will be shaped and how we manage the financial resources.
- Delivery and Action Plans – detailing the actions needed to deliver the services and support needed in line with local and national strategies e.g Learning Disability Strategy, Dementia Strategy, etc

How to find out more

We want to continue to involve people in the design and delivery of health and social care services in their local areas, and involve people in shaping the care and support that is right for them, providing choice and control and empowering people to lead healthy lives.

We will continue to inform you via email, social media, through community networks, etc of how you can be involved, and contact information and details on how to follow us can be found below.

We need your help to get the word out please share this email with colleagues, friends, family, community and professional networks.

Thank you for your support with this, if you have any questions please let me know.

Kind regards
