

Temporary Diversion of The Formartine & Buchan Way

Chapleton, Ellon

For a period of approximately 6 weeks commencing the **3rd February 2020**, a section of **The Formartine & Buchan Way** will be temporarily diverted to allow bridge replacement works at **Chapleton** to proceed safely. During construction, machinery will be working at various locations between the access point at Ellon and the construction site at Chapleton. We anticipate works will be complete on **14th March 2020**, weather and site conditions dependent.

For your own safety and that of the construction team you are requested to observe all safety signs and to avoid entering the construction site area. A diversion to bypass the worksite will be provided, however due to the nature of the site the diversion may be unsuitable for some users e.g. horse riders.

For all enquiries please contact Aberdeenshire Council Environment Team (North) via outdoor.access@aberdeenshire.gov.uk or 01467 534333. We apologise for any inconvenience caused during this period and thank you for your co-operation.
